

Gianluca Pettiti was born and raised in the Monregalese region of Northern Italy and now resides in the Boston area with his wife and two children. He is an international business executive and thought leader in the Life Science and Diagnostic industries and has lived and worked for the last two decades in Europe, South America, Asia, and US, running fortune 500 companies.

After receiving a Master of Science in Production and Management engineering degree from the Politecnico di Torino, Mr. Pettiti started his career in finance at General Electric before moving to the Life Science industry in 2006 when he joined Applied Biosystems and held several top leadership roles in Italy.

In 2009, he was appointed Vice President and CEO of the Latin America business and moved to Sao Paulo, Brasil with the firm.

In 2012, he was appointed as President of the China Business at Life Technology Corporation and moved to Shanghai, China. Upon acquisition by Thermo Fisher Scientific in 2015, he was appointed President of the Thermo Fisher business in the region.

As an avid technologist and curious innovator, Mr. Pettiti has been recognized over the years as a thought leader and influencer in the industry. He was honored with the title of Alumnus Testimonial from the Politecnico of Torino in 2017.

In 2018, he relocated to the US where he led several businesses within Thermo Fisher, including the Life Sciences and Diagnostics businesses where he was in top executive positions.

In January 2022, Gianluca was appointed his current role as Executive Vice President for the Technology Businesses at Thermo Fisher Scientific; a fortune 100 company recognized as the world leader in serving science. He is also leading the company's digital and innovation efforts.

Mr. Pettiti is a senior member of the Health and Healthcare council at the World Economic Forum and is a member of the board and non-executive director at Butterfly Network. Butterfly is an innovative company disrupting the ultrasound market.
