# DESCRIBE AND CHECK YOUR IDEA

## Effective Priority Search in Literature

April 1st, 2025 - CCT MOREGO

10:45-12:00 Leonardo meeting room & on-line

The seminar is directed to researchers, administrative staff and companies interested in the topic.

A patent is not only an administrative instrument but also an amazing, public source of knowledge of prior art.

This makes patent searching a very important activity during the several phases of the inventing process.

### Speakers:

Guido Moradei | AIDB

Domenico Golzio | AIDB

Organized by Intellectual Property Management  
Office (IPMO) & Technology Transfer  
Directorate of IIT
