TITLE

Compounds and compositions for the treatment of cystic fibrosis

INVENTORS

Tiziano BANDIERA, Fabio BERTOZZI, Paolo DI FRUSCIA, Francesco BERTI, Alejandra RODRÍGUEZ-GIMENO, Emanuela CACI, Loretta FERRERA, Nicoletta PEDEMONTE, Luis Juan Vincente GALIETTA

DESCRIPTION

The invention relates to compounds and pharmaceutically acceptable salts or solvates thereof. It further discloses a pharmaceutical composition comprising said compounds and their uses.

In particular, the compounds of the invention act as correctors of the mutated protein that is responsible for cystic fibrosis, i.e. Cystic Fibrosis Transmembrane conductance Regulator (CFTR).

APPLICATIONS

Treatment of cystic fibrosis

KEYWORDS

Cystic Fibrosis Transmembrane conductance Regulator (CFTR), mutation correctors

BIBLIOGRAPHIC DATA

Composti e composizioni per il trattamento della fibrosi cistica

Application Number IT102017000028184

Priority Date March 14, 2017

Applicants Fondazione Istituto Italiano di Tecnologia, Istituto Giannina Gaslini, Fondazione per Ricerca sulla Fibrosi Cistica
